YaraAmplix™ OPTIMARIS®

APPLICATION RATES AND TIMINGS

Tomato: Two foliar applications at 950 ml/ha. Apply the treatments covering critical growth stages such as vegetative growth stage, pre flowering and early fruit sizing. Application rates should be adjusted based on plant size and leaf area. Use enough water for good spray coverage.

INFORMATION ON SAFETY AND ENVIRONMENT

In order to avoid risks to people and the environment, follow the recommended instructions for use of this biostimulant. Dispose of contents and container in accordance with all local, regional, national and international regulations.

ADDITIONAL INFORMATION FOR PROFESSIONAL USE ONLY

CONDITIONS OF SALE

This Product is sold subject to the seller's Terms and Conditions of Sale, which are available upon request. Use of the Product is acceptance by the buyer of the Terms and Conditions of Sale.

DIRECTIONS FOR USE ALWAYS FOLLOW THESE LABEL INSTRUCTIONS

Mix the product thoroughly before use. Slowly add the product to the tank whilst agitating. Apply using an adequate amount of water that will provide complete dilution of the product and continue to agitate until spraying is completed.

TANK MIXING/CO-APPLICATION

Read ALL labels carefully and adhere strictly to the instructions for use. This product, once diluted, is miscible with the most commonly used plant protection active ingredients and fertilizing products. Do not apply undiluted. Co-application is entirely at the risk of the end-user. Before co-application of products you, or your advisor, must visit www.tankmix.com for important information. Alternatively, contact Yara for specific advice.

PRECAUTIONS

Avoid application under extremes of climate, e.g. rapid drying conditions, extremely slow drying conditions, frost, rain, or when frost or rain are anticipated. Wear suitable gloves and face shield when handling this product. Clean all equipment before and after use. Please refer to the MSDS for further information, available at www.yara.com.

STORAGE

Keep in a cool, dry chemical store, out of reach of children and livestock. The product is stable at ordinary temperatures and pressures. Protect from extreme temperatures; store between -5°C and 40°C.
